

more than just energy

Power Engineering (India) Pvt. Ltd.

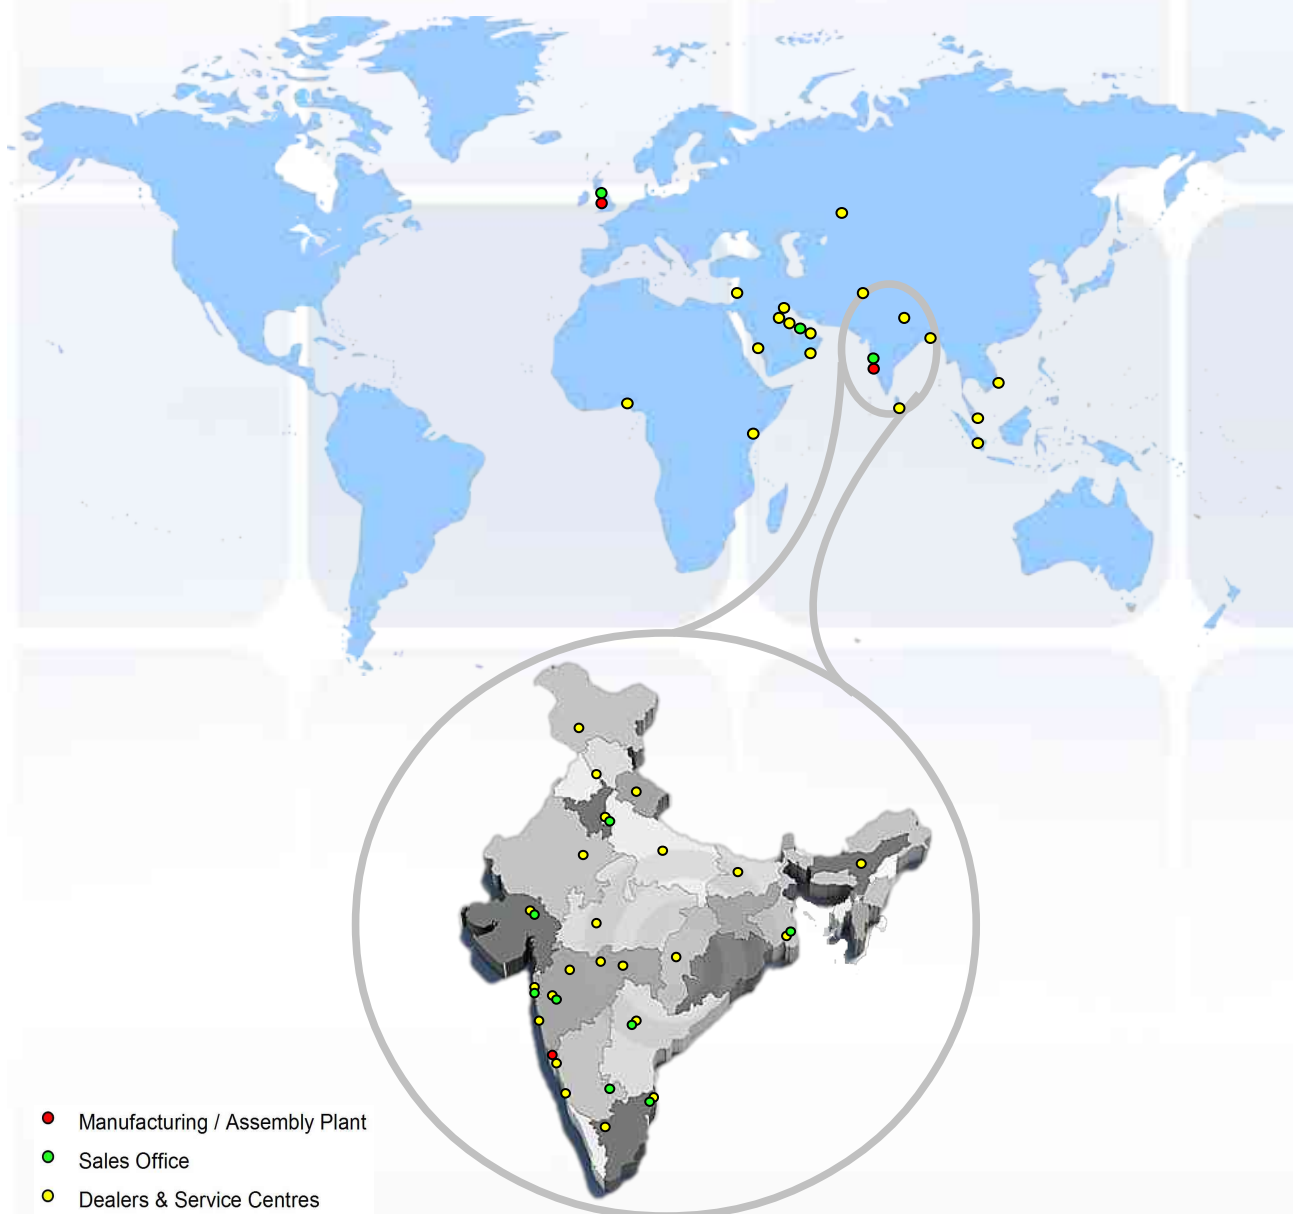

The Company:

Power Engineering (India) Pvt. Ltd. is one of India's leading manufacturer of Generator sets, Electrical panels and Compact sub-stations.

For over two decades, the company has consistently provided “**Total Power Solutions**” by continually developing designs, processes and people skills through the use of reliable and time-tested technologies.

The company, started in 1989, has grown to establish its global presence today, through its sales offices in India, Dubai and the U.K. Besides this, 25 dealers represent us in more than 20 countries.

Within India, our sales offices in 7 major cities and a widespread service dealer network across the country, satisfy the power needs in the domestic market.

The Group:

Power Engineering India Pvt. Ltd. is a flagship company of the **Pai Kane Group**. The Group, established in 1971 in Goa, includes five world class manufacturing facilities:

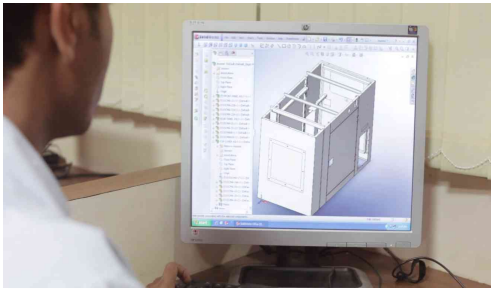

1. Power Engineering (India) Pvt. Ltd
Power generators, Electrical panels, Compact sub-stations
